

BEATRICE W WANJIRU

Data Analytics Engineer | BI Developer | Data Engineer

Nairobi, Kenya | beatiewakarima1@gmail.com | +254 724 337 939 | [linkedin.com/in/beatricewwanjiru](https://www.linkedin.com/in/beatricewwanjiru) | github.com/Beatrice-Wakarima | beatricebuilds.vercel.app

PROFESSIONAL SUMMARY

Data Analytics Engineer and BI Developer with a background in Economics & Finance, specializing in end-to-end data solutions — from raw ELT pipelines to production-grade Power BI dashboards. Builds governed, star-schema data warehouses using Python, SQL, dbt, and Apache Airflow, and Dockerizes them for reliable, repeatable deployment. Combines a business-analytical mindset with hands-on engineering skill, and has run own ventures end to end, bringing practical ownership to every data project.

CORE SKILLS

Languages: Python, SQL, DAX, M Language, R

Data Engineering: dbt, Apache Airflow, Power Automate, ETL/ELT design, Docker, Docker Compose

Warehousing: PostgreSQL, BigQuery, Snowflake, star-schema & medallion modeling

Analytics & BI: Power BI, DAX, Tableau, Excel, Matplotlib, Seaborn

Data Science: Pandas, NumPy, scikit-learn, XGBoost

Tools & Practices: Git, GitHub Actions, pytest, data quality testing, CI/CD, Agile/Scrum

PORTFOLIO PROJECTS

HR & People Analytics Pipeline — Independent Project

2025

- Built a Power Automate Desktop → BigQuery → dbt → Power BI pipeline processing a 500-employee dataset into a 12-model star schema with 38 passing dbt tests.
- Containerized the full stack with Docker for consistent, reproducible deployment.

Retail Sales Analytics & ELT Pipeline — Independent Project

2025

- Engineered a PostgreSQL + Python + Apache Airflow ELT pipeline with 7 analytical mart views, validated by a pytest suite and runtime SQL data-quality gates.
- Delivered results through a Flask/Chart.js dashboard and a companion Power BI (.pbit) template.

SPAERO Revenue Analysis — Independent Project

2024

- Consolidated 4 Excel data sources into PostgreSQL through 36 SQL transformation blocks across 5 modeling layers.
- Published a 6-page Power BI dashboard and full technical documentation, including a public write-up.

PROFESSIONAL EXPERIENCE

Owner / Operator — Egoli Pig Farm, Vihiga, Kenya

Ongoing

- Manage end-to-end operations of a commercial livestock business, including financial tracking, budgeting, and performance reporting.

Sacco Officer — Kenya Bankers Sacco

2017 – 2018

- Marketed Sacco financial products and services to prospective and existing members.
- Recruited and onboarded new members, guiding them through account setup and product options.
- Assessed loan applications and calculated loan viability against member savings and repayment capacity.

EDUCATION

BSc, Economics and Finance — Kenyatta University

2023
